PREFACE

This book is designed to give the reader an overview of Georgia from a statistical perspective. Every effort has been made to publish the latest data available.

The demand for a statistical book that covers many program areas and is annually updated has been great for some time. As a result of this demand, the Georgia State Data Center (see Appendix 3 for a description of the State Data Center Program) began publishing the Georgia Descriptions in Data series in July, 1982. While each edition contains data on similar topics, each edition emphasizes different areas and presents different statistics.

Georgia Descriptions in Data 1985 focuses on Georgia education data for school systems and makes comparisons to similar data for other states. The 1985 edition also includes population, employment, income, health and other data for metropolitan statistical areas, counties and cities. Georgia Descriptions in Data 1984, contains commuting data for Georgia counties, state agency data on employment, school enrollment, health, revenues and 1980 census data for Georgia cities. Georgia Descriptions in Data 1983 contains primarily data from the 1980 census as well as population projections by county for 1990 and 2000. Georgia Descriptions in Data 1982 contains 1980 census data on population and housing as well as state agency data on public safety, transportation, agriculture, parks and natural resources. Please refer to the Subject Index for a more complete list of subjects covered in each edition.

Sources and explanations pertaining to individual tables are listed after Table 37. Appendix 1 helps the reader to determine which state agency is responsible for data in a particular subject area. Appendix 2 lists the departments of Georgia State Government and gives addresses and phone numbers. Appendices 1 and 2 used together will give the reader tremendous help in locating types of information.

It is our hope that this book proves useful in providing frequently needed data. We plan to update the book annually and expand the scope as needed. Suggestions on new tables to include are welcomed. For this purpose or to request additional information on a table, contact Robin Kirkpatrick with the Division of Demographic and Statistical Services of the Georgia Office of Planning and Budget (404-656-0911 or GIST 221-0911).

TABLE 3.
(1) The Criterion-Referenced Test (CRT) is a measure of the basic reading and math skills considered by Georgia educators to be essential for further education. The test is administered to grades 1, 4, 6 and 8; with scores ranging from 100 to 300 for each subject. Scores cited in this table are combined reading and math.
(2) Score of 0.00 indicates school system does not have high school.

TABLE 5.
(1) Fall enrollment is a headcount of all enrolled students.
(2) Includes medical residents and interns.

TABLE 6.
(1) Equivalent full-time enrollment is a conversion of the number of students enrolled, both full and part-time, to an equivalent number of full-time students. EFT is calculated by dividing total credit hours by 15, the load for a full-time student for a quarter. Due to this calculation, the sub-totals may be off because of rounding.

TABLE 7.
(1) Does not include 23 Advanced Certificates and 24 Graduate Certificates awarded at Georgia State University.
(2) Includes Medicine (178), Dental Medicine (66), Veterinary Medicine (88), Doctor of Pharmacy (7), Pharmacy (94) and Law (211).
(3) The "university" or "college" status of some institutions may have been different in the years 1972-73.

TABLE 10.

(1) Reasons for large "No Certificate" count:
(a) No certificate applied for by individual;
(b) Certificate being processed by certification office;
(c) Certificate not claimed or not yet recorded by LEA.
Professional T1, T2 and T3 certificates indicate vocational education instructors by level of school completed (T1-high school, T2-Associate degree, and T3-three years of college). Holders of T1 and T2 certificates are in the process of completing their Professional Education sequence; T3 certificates are no longer awarded. Provisional B4 or 5 year certificates indicate that the individual has completed a Bachelor (B4) or Master (5 year) degree in a field other than education and is currently taking the Professional Education sequence. Professional 4, 5, 6 or 7 year certificates indicate the level of degree obtained in education coursework (Bachelor, Master, Specialist or Doctorate).

3. GEORGIA STATE DATA CENTER PROGRAM

The Georgia State Data Center Program is a cooperative arrangement between the U.S. Bureau of the Census and the Georgia Office of Planning and Budget. Additional participants in the Program are as follows:

The Georgia Department of Community Affairs
Emory University Library
Georgia State Health Planning and Development Agency
University of Georgia Computer Center
Albany State College Library
Georgia Southern College Library
Georgia State University Library
Mercer Law School Library
University of Georgia Main Library
Georgia Institute of Technology Main Library
Georgia Area Planning and Development Commissions

The fundamental objectives of the Program are as follows:

1. Provide access to census data and assist local governments, planning commissions, and private businesses in utilizing the information.

2. Promote an even distribution of services to all areas of the State.

3. Expand the number of persons qualified to offer training and technical assistance to others on such subjects as what census statistics are available, how to read census tables and tape technical documentation, and approaches to effective use of the data.

4. Develop new methods for improving the distribution and utilization of data from the 1980 Census.

5. Increase user awareness of census products.
